A. In the city of Ellensburg, murals foster a sense of community and connection and enrich the experience of both tourists and residents. Acknowledging that murals provide economic benefits and enhance livability, the city's mural policy seeks both to preserve historic murals already in existence and provide guidance for creation of new works of mural art.

B. On landmark properties and in historic districts, the policy seeks to allow the placement and scale of new murals in such a way that the character-defining features of historic properties are not obscured, covered, or otherwise adversely affected. The policy encourages artistic expression through murals in appropriate locations with little intrusion into artistic expression and content. [Ord. 4725 § 4, 2016.]

As a creative means to eradicate gang graffiti, this project is a youth mentorship opportunity to allow street artists to teach youth how to create this art medium. The specific area selected is a location tagged with gang graffiti and drug use propaganda. The objective of this project is to allow Ellensburg youth to make a positive mark on the community and take ownership of their creation. The initial design is of a high contrast phoenix colored in an array of orange and red on a teal/purple background.
